Article 10

Shall the Town of Hampton vote to raise and appropriate the sum of \$125,000 for the purpose of contracting professional services for the completion of a comprehensive update of the Town of Hampton Master Plan. The purpose of a Master Plan is to guide the overall character, physical form, and development of a community and is required by law to be updated periodically. Hampton's Master Plan has had only occasional updating since its inception in 1985. As Hampton is the most vulnerable Town in the Seacoast in several respects (such as flooding, potential impacts from sea-level rise, drainage problems, etc.), it is essential to update our Master Plan in its entirety in order to meet more recent challenges and to better plan for the future. A professionally developed, forward-looking Master Plan is needed to preserve, protect, and enhance property values and the quality of life of Hampton residents, and to enable the Town to qualify for grants for projects that are otherwise financially beyond what the Town can afford.

The Master Plan update will be conducted with the assistance of qualified professional consultant(s), and will include a robust public participation process. The Town has already been successful in securing grant funding in the amount of \$45,000 from other sources to accomplish specific parts of this project. The additional \$125,000 must be raised and appropriated through this Article to provide for the concurrent completion of all Master Plan components, resulting in a Plan that is fully current, comprehensive, and user-friendly.

This shall be a non-lapsing appropriation per RSA 32:7, VI and shall not lapse until the purpose of this Article is completed or by December 31, 2023, whichever is sooner? (Majority vote required)
